		3 years	-9.57%
		Since Inception (May 2014)	-29.77%

Fund Manager Comment

As per World Bank,

“The energy price index fell 7.6% in April, led by sharp declines in U.S. natural gas (-17.6%) and crude oil (-6.8%). Non-energy prices decreased by 2.6%. Food prices edged down 0.5%, raw materials dipped 0.9%, and beverages eased 0.8%. Fertilizer prices inched up 0.7%. Metal prices dropped 7%, while precious metals rose 6.3%.”

“Faltering economic growth is coinciding with ample oil supply in ways that are expected to drop global commodity prices to their lowest level of the 2020s, according to the World Bank’s latest Commodity Markets Outlook.”
